Useful State-Of-The-Art Methodology for Chemical and Biological Analysis

About the *Journal of AOAC INTERNATIONAL*

Discover the latest in basic and applied research in the analytical sciences related to foods, drugs, agriculture, and the environment. The *Journal of AOAC INTERNATIONAL* is the forum for the exchange of information among method researchers who must keep informed of new technology and techniques in the regulatory agencies and regulated industries. Read contributions from leaders in the fields of chemical and biological analysis, standard method performance requirements (SMPR) developed through the AOAC's stakeholder process, and AOAC *Official Methods of Analysis*SM approved by expert review panels as methods meeting those SMPRs.

The *Journal of AOAC INTERNATIONAL* publishes 6 issues per year of fully refereed contributed papers in the fields of chemical and micro biological analysis: original research on new techniques and applications, validation studies, studies leading to method development, meeting symposia, newly adopted AOAC approved methods and invited reviews.
